

SEATTLE

FRANCOIS

Our design team packed distinctive terrain into parks and jumps. Start your progress through terrain safely. Have fun! Respect it. Use it!

Look before you leap.
 Scope around the jumps first, not over them. Know landings are clear, and clear yourself off of the landing area.

Easy style it.
 Start small and work your way up. (Diverted airtails not recommended.)

Respect gets respect.
 From the bottom through the park.
