YOUR RESPONSIBILITY CODE

Keystone Resort is committed to promoting skier safety. In addition to people using traditional alpine ski equipment, you may be joined on the slopes by snowboarders, telemark skiers or cross-country skiers, skiers with disabilities, skiers with specialized equipment and others. Always show courtesy to others and be aware that there are elements of risk in skiing and snowboarding that common sense and personal awareness can help reduce. Know your ability level and stay within it. Observe "Your Responsibility Code" listed below and share with other skiers the responsibility for a great skiing experience.

- Always stay in control, and be able to stop or avoid other people or objects.
- People ahead of you have the right of way. It is your responsibility to avoid them.
- You must not stop where you obstruct a trail, or are not visible from above.
- Whenever starting downhill or merging into a trail, look uphill and yield to others.
- Always use devices to help prevent runaway equipment.
- Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
- Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.

Unmarked Obstacles Be advised that Keystone Resort does not mark all potential obstacles or hazards. When marked poles, flags, fencing, signs,

Lift Safety Under Colorado law, you cannot board a lift unless you have sufficient physical dexterity, ability and knowledge to negotiate or to use such lift safely or until you have asked for and received information sufficient to enable you to use the lift safely. You may not use a lift or any ski trail when under the influence of drugs or alcohol.

Snowcats And Snowmobiles CAUTION—snowcats, snowmobiles and snowmaking may be encountered at any time.

Slow Zones Certain areas (indicated on the map in yellow) are designated as SLOW ZONES. Please observe the posted slow areas by maintaining a speed no faster than the general flow of traffic. Space and speed are especially important in these areas. Fast and aggressive skiing will not be tolerated and may result in termination of your skiing/riding privileges.

Helmet Use Keystone Resort encourages our guests to wear a helmet. While helmets may mitigate or reduce the severity of some head injuries, their use does not guarantee safety and will not prevent certain injuries. Keystone Resort reminds you that every winter sport participant shares responsibility for his or her safety and for that of others using the ski area facilities.

Avalanche And Snow Safety Avalanches may occur both inside and outside of the developed ski area at any time. Avalanches are an inherent risk of the sport due to the nature of snow and its accumulation on steep, mountainous terrain. When skiing in deep, unconsolidated snow, beware of
